EDUCATION

Rutgers University-New Brunswick

Bachelor of Science in Computer Science, Cognitive Science

New Brunswick, NJ

Sep 2020 – (May 2024)

- GPA: 3.86/4.00
- SAS Honors Program
- SAS Dean's List every semester
- *Relevant Coursework:* Data Structures, Design and Analysis of Computer Algorithms, Cognition and Decision Making, Fundamentals of Cognitive Neuroscience, Principles of Programming Languages, Numerical Analysis and Computing, Principles of Data Management, Neural Structure of Language, Formal Languages and Automata, Introduction to Artificial Intelligence (Graduate)

INDUSTRY EXPERIENCE

Full-Stack Developer Intern

Provenir

Jun 2023 – Present

Parsippany, NJ

- Implemented Decision Trees, Random Forests, XGBoost, and RNNs into FLAML using scikit-learn and TensorFlow for automated model training and deployment with AutoML; tuned hyperparameters and added monotonic constraints to elevate average model accuracy up to 95%
- Integrated artifact, SHAP, and LIME plot generation capabilities, enabling deep insights into model behavior and resulting in an improved UX
- Implemented over 100 unit tests using MockMvc and demoed deployment with Minikube to ensure robust performance and early issue detection
- Improved API endpoints for model log retrieval and PDF export, enhancing data accessibility and facilitating streamlined documentation

SAT/ACT Tutor

The Princeton Review

Feb 2023 – Jun 2023

Princeton, NJ

- Utilized innovative teaching technologies and instructional design principles to motivate students and promote academic excellence
- Frequently stayed after hours to address individual student queries, ensuring thorough understanding and boosting confidence in test preparation

LEADERSHIP/SERVICE

Chief Technology Officer

HealthMUN

Sep 2023 – Present

New Brunswick, NJ

- Orchestrated the design, development, and maintenance of the conference website utilizing Next.js and Tailwind CSS, ensuring real-time updates and a user-friendly interface
- Collaborated intimately with the Secretary-General and Deputy Secretary-General, playing a pivotal role in establishing communication infrastructures and social media platforms
- Taking an active role in the recruitment process, assisting in the interviewing and evaluation of potential director candidates to uphold the standards of the conference

Co-Founder

The Verbose Project

Mar 2022 – May 2023

New Brunswick, NJ

- Developed a non-profit tutoring platform catering to incoming and first-year college undergraduates, focusing on fostering academic growth and empowerment
- Produced and released a series of "Introduction to Python" tutorial videos, which garnered positive feedback and enriched the learning experiences of students
- Provided supplemental tutoring assistance to students at Rutgers learning centers, augmenting the resources available to them and ensuring a solid foundational understanding

RESEARCH EXPERIENCE

Research Assistant

Sep 2023 – Present

CCNP

New Brunswick, NJ

- Conducted psychiatric screenings on mental health patients at the Rutgers-Princeton Center for Cognitive Computational Neuropsychiatry
- Created Python scripts to convert 800+ Excel spreadsheets from five labs into SQLite databases
- Developing a JavaFX GUI from scratch, simplifying database interactions for researchers without SQL knowledge, and integrating an automatic update from Box

ML Research Intern

May 2022 – Jun 2022

Abraira Lab

New Brunswick, NJ

- Employed Motion Sequencing to preprocess and create a dataset of over 10,000 high-quality training samples for an unsupervised ML model in a Computational Neuroethology observation study
- Analyzed behavioral syllables identified by the model and rectified anomalous keypoint results, leading to a significant improvement in data quality

PUBLICATIONS / ARTICLES

- Eisdorfer, J. T.*, Thackray, J.*, Oputa, O., Abraira Lab Taskforce, & Abraira, V. (2022). *The Behavior Biomarker Scale (BBS): A machine-vision approach for automated locomotor recovery evaluation at millisecond timescales*. *Unpublished manuscript*, Department of Cell Biology and Neuroscience, Rutgers University.
- Sarkar, R. (2023, August 2). *Student insights: The Dark Side of Chatbot Therapy*. Critical AI. [Online]. Available: <https://criticalai.org/2023/07/31/student-insights-the-dark-side-of-chatbot-therapy/>

CERTIFICATIONS

- *Deep Learning Specialization*, DeepLearning.AI (Coursera) - Completed Oct 2022
- *Machine Learning Specialization*, Stanford University (Coursera) - Completed Jun 2022
- *AI For Everyone*, DeepLearning.AI (Coursera) - Completed Mar 2022

PROJECTS

Invasion of the Bot-Grabbers | Python, Jupyter, NumPy, Matplotlib

Sep 2023 – Present

- Developed a grid maze simulation for a graduate-level course, Introduction to Artificial Intelligence (16:198:520), with a bot navigating to save crew members while avoiding aliens
- Implemented search algorithms including BFS, A*, and D* Lite to facilitate the bot's path-finding through the maze during the first iteration of the project
- Conducted extensive tests by varying the number of aliens and grid sizes, visualizing and analyzing the bot's performance metrics regarding its survivability and the number of crew members it saved
- Enhanced the bot's decision-making in the second iteration by integrating Bayesian networks; utilized sensors to determine optimal paths to crew members probabilistically

Tch.ai | Next.js, Tailwind, Flask, Keras, OpenCV, Pandas, MySQL

Apr 2023 – Jul 2023

- Innovated a full-stack web application to deploy a Keras image classifier and tokenizer that recommend songs based on mood predictions from facial expressions or textual data
- Trained the classification model on the FER-2013 dataset and utilized OpenCV and a Haar Cascade classifier to preprocess datasets: achieving a training accuracy of around 96% and a validation accuracy of over 70%
- Designed a Next.js and Tailwind frontend that supports three genre selection methods—image, text, and manual choice—thus elevating user engagement with seamless data uploads and song recommendations
- Crafted a Flask REST API backend for image data preprocessing, providing personalized playlists from a CSV of 114,000+ songs, fine-tuned using genre, mode, valence, and other features
- Integrated a remote MySQL database, allowing users to create accounts and manage liked songs

UniDB | MySQL, Java, Python, JDBC, BeautifulSoup, Jupyter

Mar 2023 – Apr 2023

- Compiled data for 100 students using various scripts and scraped course details from Rutgers University sites via BeautifulSoup and requests
- Constructed a MySQL database with simulated student data, including majors, minors, credits, and schedules from 250+ scraped classes
- Developed a Java application using JDBC to offer users a selection of 10 preconfigured or custom queries

TECHNICAL SKILLS

- Programming Languages: Python, Java, C++, C, JavaScript, MATLAB
- Web Technologies: HTML, CSS, JavaScript, Flask, Next.js, Tailwind
- Frameworks and Databases: TensorFlow, Docker, Spring, OpenCV, JavaFX, MySQL, MongoDB
- Libraries: Pandas, Keras, scikit-learn, Beautiful Soup
- Development Tools and Platforms: Git, Jupyter, Jira, Docker, Kubernetes, AWS

EXTRACURRICULAR ACTIVITIES

- *Undergraduate Student Alliance of Computer Scientists* - Member, 2021 - 2023
- *Cognitive Science Club* - Member, 2021 - 2023

LANGUAGES

- English (Native)
- Bengali (Native)
- Hindi (Advanced)
- Japanese (Intermediate)
- German (Beginner)
